ABOUT

To work in synchronization with the organizational objective to achieve personal & professional growth by using my technical and analytical skills, thereby becoming a valuable asset to the company.

PROJECT

CRYPTO-CURRENCY (REACTJS PROJECT)

- Built a website where user can see details of Exchange of coins.
- User can see real data for crypto-currency.
- Technology used:
 1. CSS (Chakra UI)
 2. JavaScript
- Hosted link Below :
<https://crypto-app-henna-seven.vercel.app/>

TODO LIST (REACTJS PROJECT)

- Built a website where user use to maintain our day-to -day tasks or list of everything that we have to do.
- The four major tasks that we can perform in a TODO list are:
 1. Add Tasks
 2. Update Tasks
 3. Read Tasks
 4. Delete Tasks
- Hosted link Below:
<https://todlist-rohanchaudhary94.vercel.app/>
